PROTECTIVE TARIFF WAGES.

The New York Evening Post in a recent issue remarked:
 "What we are in search of are the McKinley wages, and we shall be content with a single specific instance of them."
 On the same page of the issue the following table of the rates of wages paid for railroad labor, which we give as "a single specific instance."

| AVERAGE RATES OF WAGES. | | | | | |
|-------------------------|-------------|---------|--------|-----------|----------------|
| Occupation | New England | Georgia | Texas | Northwest | Pacific States |
| Brakemen | \$1.20 | \$1.25 | \$1.25 | \$1.25 | \$1.25 |
| Conductors | 2.25 | 2.50 | 2.50 | 2.50 | 2.50 |
| Engineers | 3.25 | 3.50 | 3.50 | 3.50 | 3.50 |
| Firemen | 1.25 | 1.25 | 1.25 | 1.25 | 1.25 |
| Porters | 1.25 | 1.25 | 1.25 | 1.25 | 1.25 |
| Switchmen | 1.25 | 1.25 | 1.25 | 1.25 | 1.25 |
| Average | 1.75 | 1.75 | 1.75 | 1.75 | 1.75 |
| General average | \$1.75 | | | | |

These are McKinley wages, and will be maintained as long as the McKinley bill is maintained. The average free trader for the same labor is less than half the above. It may be urged that protection has nothing to do with railroad wages. Well, take away our protective tariff, and when the men who are now in the factories are thrown out of employment and crowd to the railroads, what the railroads have not the present amount of freight to move because of business depression, then, perhaps, it will be admitted that protection has something to do with railroad wages.

HOW IT ROBS THE FARMER.

Rock county farmers are rapidly being made to realize what the McKinley law has done for them.
 "Had it not been for that law," said a democrat but frank dealer not long since, "we could have bought this last year's crop for ten cents for eight. But then, if the democratic victory had not made people expect the speedy repeal of the law this same loaf would be selling for twelve cents, or I ought not to complain."
 Four cents more a pound for tobacco because of the McKinley law! How the Rock county farmer must groan as he realizes that the tariff increased his income this year nearly fifty per cent. How he must write as he realizes that tobacco raised by cooly labor can no longer compete with his on equal terms. The democratic editors say he groans and writes and of course they must know, but a good many once-skeptical people are beginning to wonder if protection isn't a good thing after all.

Statistics of defections during the year place Pennsylvania easily at the head of the list, with an aggregate loss of \$2,326,837. New York ranks second with \$1,929,270. Among the western states Nebraska shows a top total of \$160,263; Iowa, \$9,615; Kansas, \$112,447; Colorado, \$74,000; South Dakota, \$12,000 and North Dakota, \$10,000. The total recorded defections reach the splendid sum of \$8,622,966, or the second largest aggregate reported in twelve years. And it was not a very profitable year for trusted crooks either.

President Harrison emphatically denies that he has been urging special pension claims upon the department. The denial was scarcely necessary. If Benjamin Harrison has impressed one thing more than another upon the people it is the fact that he understands and upholds the dignity of the presidential office.

Evansdon doesn't like Banker Kean and his Evansdonian methods. At a progressive conference party in the Chicago suburb the other day one of the booby prizes was a \$1000 draft on Mr. Kean's bank.

King Cotton no longer wields the productive receptor of the nation, but in the south he is yet the reigning monarch. His contribution to the wealth of the country last year aggregated \$400,000,000.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from two drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

If you are now on sufferer by Carter's Little Liver Pills, Dr. Williams' Pink Pills makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable, and these little pills cure both.

DESTITUTION IN KANSAS.

AWFUL FATE OF A WHOLE FAMILY IN THAT STATE.

A Rooks County Widow and Three of Her Children Perish from Hunger and Cold—Two Others in a Dying Condition.
 STARVED TO DEATH.
 STOCKTON, Kan., Jan. 5.—From Farmington, in the northern part of this (Rooks) county, comes a tale of starvation and death. John Clifton died several years ago and left his widow with five children to carry on the farm. Successive failures of crops left her penniless and when the winter came it found the family in a house with neither fuel nor food. Saturday a neighbor was passing the place and, seeing no sign of life, entered the house, where he found Mrs. Clifton lying dead with three of her children, while the other two were in the last agonies of the struggle.

BALFOUR ASKS FOR AID.

The Irish Secretary Confesses That He Can Not Prevent Suffering in Erin.
 LONDON, Jan. 5.—The Earl of Zetland, Viceroy of Ireland, and Mr. Balfour, the Chief Secretary, have signed a declaration as to the condition of poverty prevailing in the west of Ireland. They describe the condition as chronic in some districts and state that if no aid reaches the people the situation will develop into great distress during the winter and spring. The declaration lays some stress upon the fact that there is no resident gentry or substantial middle class in the sections referred to, through whom employment can naturally be afforded. There are also no charitable organizations to minister to the wants of those unable to help themselves. The question is not whether money or other aid should be given but how it should be given, to what class and for what special purposes. The signers further dwell upon the importance of careful consideration as to the character of the distributive agencies, in order that the relief may be properly given, and not indiscriminately. To bestow help recklessly may infest whole towns with the vice and wickedness of professional mendicancy. In organizing a plan of relief caution is necessary in order not to interfere with the system of relief through construction of light railways and other existing measures of assistance. The conclusions reached by the signers are that charity ought to be given to persons who have no other means of support, and that toward providing meals at school for children attending, and that clothing should be furnished for children. It is also recommended that there be a single distributing authority.

A FATAL SLEIGH-RIDE.

A Vehicle Containing Six Young Persons Wrecked at a Hadley (Mass.) Crossing—Two Are Killed Instantly.
 NORTHAMPTON, Mass., Jan. 5.—A Central Massachusetts train at Hadley at 5:30 o'clock Saturday night struck a sleigh containing six young people on the crossing, and instantly killed Harry, son of Dr. J. B. Learned, and Mabel R., daughter of Rev. Frederick A. Hinckley. Both horses were killed. The other occupants of the sleigh were Charles, son of Judge D. W. Bond; Edward Bond, Fanny Plympton and Louis Adams, all of whom were injured. Miss Adams' injuries being the most severe. The flesh was torn from her face and one eye was injured. Edward Bond's leg was bruised. Henry Learned, who was killed, was a student at the Agricultural College and Miss Hinckley was a member of the Cape Cod girls.

Death of an Able Lawyer.

WASHINGTON, Jan. 5.—Randolph Coyle, Assistant United States District Attorney, died Sunday, aged 47 years, of pneumonia. Mr. Coyle was the indignant of Guiteau for the murder of President G. Field. This indictment has been regarded ever since as a wonderfully complete one, and was said to be absolutely without a loop-hole.

Never Went Sixty Miles from Home.

NEW ORLEANS, Jan. 5.—A notable death Sunday was that of a white woman, Mrs. Adelaide Maire, who, had she lived two days more, would have reached 103 years of age. She was born in Jefferson parish, opposite this city, and, though of a wealthy family, never went sixty miles away from her home.

Killed by a Snow Plow.

BUCHAREST, Jan. 5.—The driver of a steam plow, which was engaged in clearing away snow from the railroad tracks at Craiova, Roumania, becoming temporarily blinded by the flying snow allowed the plow to dash into the midst of a gang of laborers, several of whom were killed and others injured.

An Awful Mine Disaster.

VIENNA, Jan. 5.—An explosion of fire damp occurred Saturday in the Trinity pit near Ostrau. Fifteen miners have been taken out of the pit, and twenty-four men are missing and are supposed to have perished.

Drowned in a Water-Tank.

LONDON, Ont., Jan. 5.—William Weld, a prominent agricultural journalist and proprietor of the Farmer's Advocate, accidentally fell into a water-tank at his residence Saturday night and was drowned.

Killed in a Runaway.

TRAVERSE CITY, Mich., Jan. 5.—Late Saturday night John Powell left her for his home at Cedar Run. The team ran away, throwing him out on the frozen ground and killing him.

A Tannery Burned.

FULTON, N. Y., Jan. 5.—The Oswego Falls tannery, owned by D. J. Hamberger, was burned Saturday afternoon. The loss on the building and stock is estimated at \$100,000.

If You Had a Friend

About to visit some section of country where malarial disease, with its form chills and fever or bilious remittent was particularly rife, what would be about the best advice you could give him? We will tell you—to carry along with you a bottle of Dr. Williams' Pink Pills for Pale People. These little pills are known throughout malarial regions, here and in other countries, as the surest means of warding off the malarial disease, and of curing it if it should strike. Not only does it destroy the system by increasing its strength, but overcomes irregularity of digestion, the liver and the bowels, and counteracts the unfavorable effects of over-exertion, bodily and mental exposure in rough weather, or consumption too sedentary or laborious, loss of appetite and excessive nervousness. The functions of assimilation, bilious secretion and sleep have in it a most powerful and reliable auxiliary.

RITIOUS ITALIANS.

Unable to Collect Their Wages They Inaugurate a Reign of Terror at Barnegat Park, N. J.
 NEW YORK, Jan. 5.—A riot occurred Saturday night between a gang of Italian laborers and some citizens at Barnegat Park, near Tom's river, N. J. Captain Farrell, of Barnegat Park, telegraphed to General Plumb at Camden, stating that there was a serious riot near Tom's river and asked that troops of the State militia be sent as speedily as possible to Barnegat Park. Italians have been working for some time at Barnegat Park grading the road-bed of the New Jersey Southern railroad. They have not been paid their wages for two months, and in the last few days became desperate. Many of them were at the point of starvation, not even being able to procure stale beer and dry bread, which is the usual fare of the Italian laborers. It was announced that the laborers would be paid off Saturday. When they found that money was not forthcoming they were in a fighting mood and began a disturbance. Some of the citizens of the place attempted to quiet the Italians, when a hand-to-hand fight took place. The Italians used their pickaxes as well as clubs for weapons and the citizens to protect their lives were compelled to retreat and take refuge in their houses. When the trouble began Captain Farrell notified Sheriff Hageman, who sent on a posse of deputies. They communicated with the Italians through an interpreter and pacified them somewhat. As the assurances of prompt pay were not realized, however, an outbreak occurred. Sheriff Hageman and a posse of twelve men went back to the scene. He found the inhabitants terror-stricken by the menacing attitude of the Italians. Many of the families had left the village, the women and children having been sent some miles into the woods. Those who remained were frantic with fear, as threats against life and property had been freely made. Saturday night the Italians paraded the streets with torches, and incendiarism was the least of the evils expected. Governor Abbott gave orders for troops and supplies to be got in readiness, and then instituted inquiries as to the state of affairs at Barnegat Park. A telegram was received stating that Sheriff Hageman had become master of the situation, and that his posse had been sufficiently increased to overawe the Italians, who agreed to retire peacefully to their shanties and meet Tuesday for an amicable settlement with the property-owners. There are about 100 families at the resort. Governor Abbott has countermanded the order for men and supplies. The terrified citizens have telegraphed to the main office of the New Jersey Southern railroad, explaining the situation and asking the company to send down a train so that the Italians could be taken away from Barnegat Park, bag and baggage. It is feared that when the citizens attempt to force them to leave the place there will be further trouble.

Says McCarthy Must Go.

LONDON, Jan. 5.—The Paris correspondent of the Daily News says: There are the strongest grounds to believe that Figaro is well informed in declaring that Mr. Parnell insists on the resignation of Justin McCarthy from his own retirement till he marries Mrs. O'Shea. Galignani says it learns from an intimate friend of Mr. O'Brien that if the negotiations with Mr. Parnell be brought to a satisfactory conclusion within three weeks then Mr. O'Brien will submit to the sentence of imprisonment passed on him.

Illinois Railway Statistics.

SPRINGFIELD, Ill., Jan. 5.—Illinois now has the greatest railway mileage of any State in the Union, 14,017 miles. The gross earnings of all the roads in the State during the past year were \$69,961,738.14. There were 139,650 employees, whose yearly compensation was \$107,705,305.49. Five hundred and sixty-eight persons were killed; only twenty-seven of this number were passengers.

TO BUILD A MILK DEPOT.

M. M. PHELPS CANVASSES WITH THAT OBJECT IN VIEW.

If Enough Milk Can Be Had He Will Build A Depot, and Take Charge of The Shipping Scheme—Says There Is Money In It.

Indications are that Janesville will soon have a milk depot established for the purpose of shipping milk to Chicago consumers.

M. M. Phelps of the Seven Oaks dairy farm, in canvassing among the dairymen and farmers in the vicinity of the city, with a view of establishing a depot here in the near future. It was intended to hold a meeting here on Saturday afternoon to talk over the matter, but farmers were too busy preparing their tobacco for the market so that but few put in an appearance, consequently no meeting was held.

However, Mr. Phelps has thoroughly investigated the matter and is convinced that the establishment of a milk depot in Janesville would be of great pecuniary benefit to dairymen and farmers, and also to the local milk consumers.

"In case a milk depot is established here," said Mr. Phelps, "the wholesale price of milk in Chicago would be the ruling price in Janesville. It now takes twelve wagons to distribute the milk to consumers in Janesville. This work could be accomplished with six wagons and a saving of from three thousand five hundred to four thousand dollars a year.

The price of milk is now ruled by the Elgin dairies, and at the present time the price is fixed at one dollar a can of thirty-two quarts, delivered in Chicago. Rock county milk will sell at the same price. Admit that it will cost five cents a can more for freight from Janesville, or twenty cents a can, Janesville producers would receive eight cents a can for their milk, or about two and a half cents a quart, clear. This is more money than any of them are now making although selling it at a much greater price. There is a large quantity of milk in and around Janesville that does not reach a market.

"I have been looking into this matter considerably of late, and I am convinced that a milk depot here would be just the thing for the milk producers of this part of the county. If arrangements can be made to induce enough farmers to come together and furnish a supply of milk daily sufficient to load a car, I will take hold of it, build a milk refrigerator at the depot and make a start in a new industry. There is no reason why Rock county milk should not go to Chicago and be sold as Rock county milk, instead of Elgin or Crystal Lake milk as at present.

"I shall continue to work at the matter and it is possible get the dairymen and farmers together and do something in this line, as I believe it is the best way for making and saving money by producers and consumers."

THE TOBACCO MARKET.

There is Very Little Activity in or Around the Warehouses.

There is very little activity in or around the Janesville tobacco warehouses. Buyers are still on the alert for good crops, prices remaining unchanged. Growers have been busy the past week taking advantage of the moist weather which prevailed at the beginning of the new year, and have taken down the great bulk of the crop, which is now ready for stripping. When this is completed, active operations will be commenced at the warehouses, as large quantities will be brought in as soon as it is put in bundles or cases.

Sales of seed leaf tobacco reported by J. B. Gans' Son, Tobacco Broker, No. 131 Water street, New York, for the week ending January 5, 1891:

600 cases, crop of 1889, Wisconsin Havana, at 9 1/2 cents.
150 cases, crop of 1889, Pennsylvania Havana, Best 12 1/2 cents.
250 cases, crop of 1889, Pennsylvania Seed leaf, 9 to 12 1/2 cents.
120 cases, crop of 1889, State Havana at 13 1/2 to 15 cents.
100 cases, crop of 1889, New England Seed Leaf 16 to 40 cents.
150 cases, Seedling, 5 to 15 cents.
Total, 1370 cases.

A SMALL CROWD.

About One Hundred Democrats Compose the Janesville Delegation to Madison.

The Chicago & Northwestern depot was sparsely covered with representatives of the "faithful" this morning. They were waiting for the train to take them to Madison. Each one wore a ribbon in his coat inscribed "Rock County Delegation." The special train was composed of six coaches and a baggage car, but two were left in Janesville. Each of the remaining cars was in command of a major general. General Charles Horn was in command of the first car, General J. F. Sweeney the second, General A. O. Wilson the third, General O. E. Moseley the fourth. General Con Backley, of Beloit, was the adjutant general. J. B. Doe, Jr., was supposed to hold the train off, but he together with Congressman Clinton Habbitt, left the excursion train and went up on the St. Paul road. About one hundred people made up the load in the special train which went via the Evansville cut off.

The First M. E. Church Plan of Collecting Supplies.

At the morning service yesterday in the First M. E. church, Rev. (M. Evans read extracts from a letter received by Rev. Thomas Lawson from southwestern Nebraska, stating the absolute need of immediate help to prevent the people and animals from starvation. After a very earnest plea by the pastor a committee was appointed to canvass the city with Rev. Thomas Lawson as chairman. In the evening Court Street church appointed a committee. This afternoon these committees met and arranged to leave the matter with the pastors of the five co-operating churches in the movement for other arrangements.

FROST MAKES THEM WORK. Janesville Young Folks Make Work for Gazette Carriers.

The cold weather has given Janesville boys renewed activity. It might be thought that after three weeks the rush for Gazette skates would have slackened, but such has not been the case. More youthful canvassers are now scouring the town than at any time since the offer was made.

Two of the boys who handed in lists to-day had already secured skates for themselves, and were after girls' skates for their sisters. Others wanted the skates for their own use, and will hold informal dedication exercises at the Riverside rink this evening. And the story [they all tell is that Gazette subscribers are easy to fit. Five names with fifty cents each for one month's payment, and the skates are handed out.

SAW SITTING BULL DIE.

MAJ. ABBOTT TELLS OF THE CHIEF'S DEATH.

Shot Down By The Enraged Comrade of An Indian, Whom He Had Just Murdered in Cold Blood—His Hurly Son Also Slain.

No one has watched developments in the Pine Ridge district closer than has Colonel T. W. Goldin, of Janesville. It was in the Seventh Cavalry that Colonel Goldin saw service, and the Seventh is now up to its neck in trouble of all kinds.

World of the regiment's doings came to the witness to Sitting Bull's death, and came from the agency directly to Wisconsin to spend the holidays. The major accompanied the Seventh Cavalry on the march to Sitting Bull's camp, and tells many interesting stories.

The incidents of the fight and the circumstances of the death of Sitting Bull, Major Abbott said were not reported in the press dispatches. Sitting Bull, who had two households like many other Indians who take a second wife after the first squaw grows old, was sought first by Shave Head, who insisted upon his surrendering without parole. When the men had reached the door together, Sitting Bull gave a war whoop, at the same time striking Shave Head. A scuffle ensued and Shave Head fell to the floor. In an instant Sitting Bull whipped out his pistol and fired at his adversary, the ball entering the head behind the ear. Sitting Bull, while leaning over the prostrate man, was then shot by Tomahawk who stood behind him and put two balls through his back. Crowfoot, Sitting Bull's son, then appeared on the scene and was shot dead. The latter was a big, burly fellow, about twenty-five years of age and not a harmless youngster as represented.

Major Abbott insists that the only way to deal with the Indians is to do as General Miles suggests, choose the agents from among regular army officers. Matters frequently reach a point where the attention of the army is likely to be needed, and such men should be in charge of the Indians as would have the authority and experience necessary to make prompt military moves.
